ROBERT SCHUMAN

WITH JEAN MONNET

"Europe will not be made all at once, or according to a single plan. It will be built through concrete achievements which first create a de facto solidarity. Democracy owes its origin and development to Christianity. It was born when man was called to realize the dignity of the person in individual freedom, respect for the rights of others and the love of neighbour. Before Christian message these principles had not been formulated, nor they ever became the spiritual basis of an authority system."(Robert Schuman)

KONRAD ADENAUER *"We Europeans must exercise together also foreign policy, only this purpose can really help us."(Konrad Adenauer) "In the long term the future of the West is not so much threatened by a political tension as from the danger of standardization, uniformity of thought and feeling; in short, from all over the life system, the escape from responsibility, with the only self-concern. This risk can really become fatal for the cultural progress"(Konrad Adenauer)*

ALCIDE DE GASPERI *"At the origin of this European civilization is Christianity. I do not mean introducing any sectarian or exclusive policy, in appreciation of our history. I just want to talk about a common European legacy, of that unitary moral which enhances the person and the responsibility of the human being "(Alcide De Gasperi)*
